

Dear Customer,

Please note the following changes in our product portfolio:

VITLAB is one of the leading manufacturers of reusable plastic products and liquid handling instruments for laboratory use. We offer an extensive range of products for volume measurement, sampling and sample preparation as well as for storage. These products include, e.g. volumetric flasks, volumetric cylinders, beakers, scoops and bottles.

In future we will focus even more strongly on reusable plastic laboratory articles that are produced in-house.

Following products (e. g. magnetic stirring bars, desiccators and water jet pumps) will no longer be part of our product range from **January 1st 2021**.
