

Tables

Anti-vibration table for scales

Code BWM005

- Made of 60x30/20x1.5 mm rectangular cold-rolled steel profile and coated with epoxy paint treatment in oxyclear grey.
- Worktop in high-pressure compact laminate (FH) of 18 mm in white and weighing surface of the same material of 500x500 mm on concrete slab with vibration isolation by means of silentblock type shock absorbers.
- The legs incorporate level regulators.
- Laboratory furniture manufactured in accordance with the UNE-EN13150 standard 'Laboratory tables. Dimensions, safety requirements and test methods', following the recommendations of standard EN 14056:2003 'Laboratory furniture. Recommendations for design and installation'.

Code	Length (mm)	Width (mm)	Height (mm)
BWM005	1000	750	900

C-structured wall table

Code BWM006, BWM007, BWM008

- Manufactured in rectangular cold-rolled steel profile coated with epoxy paint treatment in oxyclear grey.
- Rear service gallery for the conduction of electricity, networks and fluids. Accessible for the corresponding installations from the front of the table by means of accessible panels.
- The legs incorporate level regulators. White colour.
- Work surface: compact high-pressure laminate (FH).
- Formed by layers of cellulose fibres impregnated with thermosetting resins, subjected to an 18 mm thick high-pressure process, it is one of the most common materials used in all types of laboratories. Excellent resistance to moisture, scratching and high temperatures, good resistance to shocks and chemicals.

Code	Length (mm)	Width (mm)	Height (mm)
BWM006	1200	750	900
BWM007	1500	750	900
BWM008	1800	750	900
