

- Made of stainless steel AISI 304 and AISI 316*.
- Offering good thermal resistance, they can be used at temperatures ranging from -180°C to 500°C. This makes them an ideal choice for a wide range of applications, from cold storage to temperature control processes.
- It has good chemical resistance. This ensures durability and performance in any laboratory environment.

* Shelves with handles: FKW027, FKW028
