

MAGNETIC STIRRER WITH HEATING

Code **LBB008** and **LBD030**

- Robust and durable metal housing
- Ceramic-coated heating surface, resistant and corrosion proof
- Stirring system compatible with all types of flasks
- Control panel inclined alt 30°, designed for easy operation and clear reading
- Special groove between the heating plate and the front panel to improve water protection
- Brushless motor ensuring stable operation, low noise level, and long service life

LBB008

LBD030

Included items

- Power supply cable
- 1x PTFE-coated magnetic stirring bar (25x8 mm)
- 1x support rod kit for external probe (aprox rod length 280 mm)
- PT100 external temperature probe (included with Reference LBD030)

Technical Specifications

| Code | LBB008 | LBD030 |
|-----------------------------|----------------|---------|
| Model | 593 | 593/1 |
| Type | Analog | Digital |
| Plate size | Ø140 mm | |
| Plate material | Ceramic | |
| Speed range | 0-1500 rpm | |
| Temperature range | RT-300 °C | |
| Max. Stirring range | 10 L | |
| Display | NO | LED |
| External Temperature sensor | NO | PT100 |
| Protection class | IP21 | |
| Power supply | 220VAC 50Hz | |
| Power | 330 W | |
| Dimensions | 265x160x110 mm | |
