

Sterile handles

Code **BRG001, BRG002, BRG003, BRG024**

- Manufactured from medical grade polystyrene.
- Highly resistant, suitable for inoculation and scratching.
- Handle diameter ensures inoculation accuracy.
- Ethylene oxide sterilised.
- In bags of 20 or individually packaged.

Technical specifications

Code	BRG001	BRG002	BRG003	BRG024
Volume (µl)	1	10	10	1
Format (units/bag)	20	1	20	1
Packaging (bags/lot)	25	200	25	200
Lot	500	200	500	100

Sterile handles for extensions

Code **BRG022, BRG023**

- Made of ABS
- L-shape
- Dimensions (mm): 144x33xØ4
- Ethylene oxide sterilised.
- In bags of 10 pieces or individual packaging.

Technical specifications

Code	BRG022	BRG023
Format (units/bag)	10	1
Packaging (bags/lot)	25	100
Lot	250	100

Kolle Handle

Code **BRG009, BRG010**

- Used for surface or deep seeding of bacterial cultures.
- Each handle is supplied with two flame-sterilisable Ni-Cr seeding handles which are easily inserted into the end of the handle.

Technical specifications

Code	BRG009	BRG010
Length (mm)	200	290
Handle	Plastic	Metallic

Kolle Handle Accessories

Code **BRG011, BRG012, BRG013**

- Made of Nickel-Chrome

Technical specifications

Code	BRG011	BRG012	BRG013
Description	Ø 3 mm ring end	Needle-shaped end	Lancet tip
Total length (mm)	43	48	59
Lot	50	50	59

L-handles for extensions

Code **BRG017, BRG018**

- Made of stainless steel
- Reusable
- Autoclavable and flame sterilisable

Technical specifications

Code	BRG017	BRG018
Head (mm)	30	138
Total length (mm)	150	150

Triangular handles for extensions

Code **BRG019, BRG020, BRG021**

- Made of stainless steel
- Reusable
- Autoclavable and flame sterilisable
