Product code	Description
1057	Measuring Scoops PP 10 ml
1058	Measuring Scoops PP 25 ml
1059	Measuring Scoops PP 50 ml
1060	Measuring Scoops PP 100 ml
1062	Measuring Scoops PP 250 ml
1063	Measuring Scoops PP 500 ml
1064	Measuring Scoops PP 1000 ml

Kartell SpA Labware Division declares under its own responsibility that the above mentioned products, to which this declaration refers, conform to the Company specifications, the inspection plan and the deposited samples

The raw material (PP) used to produce the above mentioned items complies with the relevant requirements of:

Food-contact EU

- EC Regulation 1935/2004
- EC Regulation 975/2009
- EC Regulation 10/2011

All source materials used in production are listed in the Directive (EC) 10/2011 among the Authorized Substances.

Food contact US

The raw material meets the requirements of the FDA Code of Federal Regulations in 21 CFR 177.1520.

Phthalates

The raw material fulfils present requirements of the European Union and does not contains phthalates that have been associated with potential healt issues like: di (2-ethylhexyl, phthalate (DEHP), di-iso-nonyl phthalate (DINP), di-isodecyl phthalate (DIDP), d-n-butyl phthalate (DBP) and butyl benzyl phthalate(BBP).

Bovine Spongiform Encephalopathy (BSE) Transmissible Spongiform Encephalopathy (TSE)

The raw material contains stearate(s) as additive(s). Animal-derived additives are categorized in cat. 3 according to Regulation (EC) 1069/2009, repealing the Regulation (EC) 1774/2002 and its implementing Regulation 142/2011, or originate from countries considered as BSE-free.

Tallow does not represent a risk for both human and animal health (World Health Organization) (OMS/CDS/VPH/95.145).

Furthermore, the polyolefin plastics are exposed to shearing stress and to temperatures ranging from 160°C to 300°C during 20 seconds to a few minutes. These successive steps help to ensure the complete protection of people's health in respect of TSE for plastic materials used for food-contact, or similar applications.

REACH/SVHC

With reference to Regulations REACH (n. 1907/2006) concerning the Recording, the Evaluation and the Authorization of the chemical substances applied starting from the 1st of June 2008 and subsequent amendments, the plastic raw materials, as Polymers, are exempt of registration.

The raw materials Supplier is committed to fully respect REACH Legislation and will only use fully REACH compliant raw materials.

LATEX

The raw material does not contain latex
